ENGINEERING AND TECHNOLOGY DEGREES

1981

PART I - BY SCHOOL

Summary Data by School, Curriculum Group and Degree Level

ENGINEERING MANPOWER COMMISSION

(C) American Association of Engineering Societies, Inc. 1981

A Commission of the
Engineering Affairs Council
of the
AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES, INC.

November, 1981

AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES, INC.

The American Association of Engineering Societies (AAES) is a national organization with 43 constituent organizations representing nearly one million engineers.

As a central coordinating organization, AAES focuses the resources of the engineering societies on technical issues of national and international importance.

1981 OFFICERS

H. Arthur Nedom
Chairman

Irvan F. Mendenhall
Chairman-Elect

Nicholas J. Radell
Secretary/Treasurer

Kenneth A. Roe
Past-Chairman

Robert A. Frosch
President

Carl Frey
Executive Director

ENGINEERING AFFAIRS COUNCIL

The Engineering Affairs Council is responsible for matters concerned with the practice of engineering in the public interest. The Council encourages voluntary exchanges of information, coordination of goals and joint action.

1981 OFFICERS

Bruno O. Weinschel
Chairman

James F. Shivler, Jr.
Vice-Chairman

Eric Herz
Secretary/Treasurer

THE ENGINEERING MANPOWER COMMISSION
# of the
AMERICAN ASSOCIATION OF ENGINEERNG SOCIETIES, INC.

The Engineering Manpower Commission was organized in 1950 as part of Engineers Joint Council, now the American Association of Engineering Societies, to serve as a focus for national technological manpower activity.

The Commission's program is carried out through the collection, analysis and publication of significant data on engineering manpower, as well as the development of programs and policies designed to acquaint the public with the importance of engineering to the national welfare.

The Engineering Manpower Commission is charged with the following responsibility:

> "To engage in studies and analyses of the supply, demand, and utilization of engineering and technical manpower; to make recommendations, conduct programs, and develop reports concerning these aspects of engineering and technical manpower; and to carry on such other programs in the field of manpower as may be authorized by the Board of Governors of AAES."

1981 EMC OFFICERS AND STAFF

Richard C. Fremon	Chairman
Kenneth Brooker	Vice-Chairman
Luke H. Noggle	Chairman, Surveys Committee
Paul Doigan	Chairman, Degree Survey
Patrick J. Sheridan	Manager, Manpower Activities
Barbara Ann Howley	Assistant
Judith A. McCormick	Assistant
Marilyn Perullo	Secretary

ACKNOWLEDGEMENTS

The Engineering Manpower Commission is pleased to recognize the invaluable assistantce of A. Earl Renner, Mark Swankoski, and associates in E.I. duPont de Nemours & Co., for the development of the computer program and the processing of the data for this survey. We appreciate the cooperation of the hundreds of deans and college officials who provided the data on which this report is based. This survey was conducted and the report coordinated by Barbara Ann Howley. The text was typed and edited by Rosanna Bonadonna and Marilyn Perullo. Donald E. Irwin is consultant to the Engineering Manpower Commission staff.

Industrial Technology Degrees by Curriculum and Level -- 1980-81. 58

INTRODUCTION

Following the format established in 1976, this report on engineering and technology degrees awarded in 1981 again presents the data in three parts. Each of the three parts focuses on a different aspect of the engineering and technology degree data and is designed to present the statistics in the most useful and convenient format.

Part I, 58 pages, consists of degree data for each school arranged in tabular form with columns for the 21 most prominent curriculum groups, totals for the school, and information on each school's accreditation and control status. There are separate tables for each of four degree levels in engineering, four in engineering technology, and four in industrial technology. At the end of each table are summaries of the number of special categories of students, i.e., the four minority groups (Black, Hispanic, American Indian and Asian/Pacific), Women and Foreign Nationals included in the totals for each degree level. This data is useful to educators in planning curricula, and as an aid in career counseling. These summaries are useful as the most complete source of data on engineering and technology programs and degrees.

Part II consists of 154 pages of detailed data broken down into each of six special categories of students, i.e., the four minority groups (Black, Hispanic, American Indian and Asian/Pacific), Women and Foreign National students presented in the same format as Part I. Prior to 1976, such degree data was not available for both engineering and technology. Part II should be useful to business and industry employers in planning affirmative action programs to meet recruiting goals for minorities and women, and to all individuals who are concerned with the progress of the national effort to increase participation of minorities and women in engineering.

Part III focuses on curricula in greater detail than the other parts. Each of 29 different engineering or technology curricula groups is listed in alphabetical order, giving the schools offering such programs, number of degrees awarded at each degree level, and the number of special categories of students, i.e., the four minority groups (Black, Hispanic, American Indian and Asian/Pacific), Women and Foreign Nationals graduated from each school. The Accreditation Board for Engineering and Technology (ABET) accreditation for specific curricula is designated for each curricula. A final set of tables summarize degrees at all levels of engineering and technology according to the detailed curriculum titles. Part III, 103 pages in length, enables users to find data on programs, affirmative action planning, etc.

For the convenience of users, these parts of Engineering and Technology Degrees-1981 are available separately or as a set. A separate report on Engineering and Technology Enrollments for 1981 is scheduled to be off the press during January, 1982. Orders may be placed with the Publications Department, American Association of Engineering Societies, 345 East 47th Street, New York, New York 10017.

PART I

This part of the report provides data on the number of engineering and technology degrees, as reported to the Engineering Manpower Commission for the school year ending June, 1981. Tables appear for the following degree levels:

- Engineering Degrees
  - Bachelor's
  - Master's
  - Engineer (Professional)
  - Doctor's

- Engineering Technology Degrees
  - Certificate - 2 year
  - Associate
  - Bachelor's
  - Master's

- Industrial Technology Degrees
  - Certificate - 2 year
  - Associate
  - Bachelor's
  - Master's

The engineering tables include data from 290 schools known by EMC to offer engineering degrees at the bachelor's level or higher. The data are essentially complete for all engineering schools in the U.S. Curricula have been grouped under 21 generic headings.

The engineering technology and industrial technology tables show data for selected schools, including all schools on the ABET accreditation lists for 1980. Data are presented in 21 generic curricula categories.

Unlike the totals for engineering degrees, the technology degree totals do not represent national totals because they include only selected schools responding to the survey. There is no way of knowing how many additional degrees may have been awarded by other schools. The 1981 technology degree data are not directly comparable to previous years' surveys because of variations in the schools responding each year.

Following the totals for each degree level, data for the six special categories of students, i.e., the four minority groups (Black, Hispanic, American Indian, and Asian/Pacific), Women and Foreign Nationals, are summarized for the 21 curricula categories. Complete data supporting this summary information are provided in Part II, while Part III gives more detailed information by curricula conveniently grouped under 29 descriptive headings, as designated by each school.

EXPLANATIONS OF SYMBOLS AND ABBREVIATIONS

Column 1 - School. Schools are listed alphabetically by state, followed by a total for that state.

Column 2 - Accreditation and Control (AC). The first digit is an accreditation code with the following meaning:

1 = At least one engineering curriculum accredited by ABET (1980 list). Used only in the engineering degree tables.
2 = At least one technology curriculum accredited by ABET (1980 list). Used only in the technology degree tables.
4 = Accredited by a regional accrediting commission (1980-81 list).
5 = Accredited by NATTS (1980-81 list).
6 = None of the above.

The second digit indicates control of the school according to the following code:

1 = Public - state or local government control
2 = Public - federal government control
3 = Private - non-profit, non-sectarian
4 = Private - religious
5 = Private - proprietary

The remaining columns give the number of degrees awarded by each school by major curriculum group, as follows:

Engineering Degree Categories

AER	Aerospace, Aeronautical, Astronautical
AGR	Agricultural, Forest
ARC	Architectural
BIO	Bioengineering, Biomedical
CER	Ceramic
CHE	Chemical and related
CMP	Computer Science or Computer Engineering & related
CVL	Civil, Construction, Structural, Transportation & related
ELC	Electrical, Electronic, Electrial Power, Communications, Electromechanics
ENS	Engineering or Applied Science, Mathematics, Mechanics, or Physics
ENV	Environmental, Sanitary, Atmospheric Sciences, Water Resources, etc.
GNL	General, Engineering Economic Systems, Interdisciplinary, etc.
INM	Industrial, Human Factors, Manufacturing & related
MAR	Marine, Naval Architecture, Ocean, etc.
MEC	Mechanical, Automotive and related
MGN	Mining, Mineral, Geological
MTL	Materials Science or Materials Engineering, Metallurgical, Welding
NUC	Nuclear
PET	Petroleum
OTH	Other
SYS	Systems, Operations Research, Systems Science

Engineering Technology and Industrial Technology Degree Categories

ACN	Air Conditioning & related
AER	Aircraft & related
ARC	Architectural
AUT	Automotive, Diesel, Internal Combustion, etc.
CHE	Chemical
CIV	Civil, Highway, Surveying, Transportation, etc.
CON	Construction and Structural
CMP	Computer, Data Processing, etc.
DRF	Drafting, Design, Graphics
ELE	Electrical, Power Distribution
ELM	Electromechanical, Instrumentation
ELX	Electronic, Communications, Radio, TV, etc.
ENS	Engineering Science, Laboratory Technology (includes 2-year pre-engr.)
GEN	Engineering Technology, General Technology
INT	Industrial Technology, Manufacturing, Quality Control, Systems
MAR	Marine, Marine Construction, Nautical Technology, etc.
MCH	Mechanical
MNP	Mining, Metallurgical and Welding
MTR	Materials, Materials Science
NUC	Nuclear, Radiation
OTR	Other Technology, e.g., Water Resources, Environmental, Forest, Agricultural, etc.

ESTIMATED DATA

Information was not received from the following engineering schools at the time of publication. In order to present reasonable comparative data to previous reports, information from the 1980 report has been substituted for these institutions:

ABET-Accredited - University of Michigan, Ann Arbor
University of Southern California

Non-Accredited - Detroit Institute of Technology
Loyola College, Maryland

Information was not received from the following ABET-accredited engineering technology schools at the time of publication. Information from the 1980 report has been substituted for these institutions:

Monroe Community College, New York
Nassau Community College, New York
Trident Technical College
University of Rhode Island

Detailed Data for Minority Groups, Women, & Foreign Students

ENGINEERING MANPOWER COMMISSION

(C) American Association of Engineering Societies, Inc. 1981

A Commission of the
Engineering Affairs Council
of the
AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES, INC.

November, 1981

AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES, INC.

The American Association of Engineering Societies (AAES) is a national organization with 43 constituent organizations representing nearly one million engineers.

As a central coordinating organization, AAES focuses the resources of the engineering societies on technical issues of national and international importance.

1981 OFFICERS

H. Arthur Nedom
Chairman

Nicholas J. Radell
Secretary/Treasurer

Robert A. Frosch
President

Irvan F. Mendenhall
Chairman-Elect

Kenneth A. Roe
Past-Chairman

Carl Frey
Executive Director

ENGINEERING AFFAIRS COUNCIL

The Engineering Affairs Council is responsible for matters concerned with the practice of engineering in the public interest. The Council encourages voluntary exchanges of information, coordination of goals and joint action.

1981 OFFICERS

Bruno O. Weinschel
Chairman

Eric Herz
Secretary/Treasurer

James F. Shivler, Jr.
Vice-Chairman

THE ENGINEERING MANPOWER COMMISSION
# of the
AMERICAN ASSOCIATION OF ENGINEERNG SOCIETIES, INC.

The Engineering Manpower Commission was organized in 1950 as part of Engineers Joint Council, now the American Association of Engineering Societies, to serve as a focus for national technological manpower activity.

The Commission's program is carried out through the collection, analysis and publication of significant data on engineering manpower, as well as the development of programs and policies designed to acquaint the public with the importance of engineering to the national welfare.

The Engineering Manpower Commission is charged with the following responsibility:

> "To engage in studies and analyses of the supply, demand, and utilization of engineering and technical manpower; to make recommendations, conduct programs, and develop reports concerning these aspects of engineering and technical manpower; and to carry on such other programs in the field of manpower as may be authorized by the Board of Governors of AAES."

1981 EMC OFFICERS AND STAFF

Richard C. Fremon	Chairman
Kenneth Brooker	Vice-Chairman
Luke H. Noggle	Chairman, Surveys Committee
Paul Doigan	Chairman, Degree Survey
Patrick J. Sheridan	Manager, Manpower Activities
Barbara Ann Howley	Assistant
Judith A. McCormick	Assistant
Marilyn Perullo	Secretary

ACKNOWLEDGEMENTS

The Engineering Manpower Commission is pleased to recognize the invaluable assistantce of A. Earl Renner, Mark Swankoski, and associates in E.I. duPont de Nemours & Co., for the development of the computer program and the processing of the data for this survey. We appreciate the cooperation of the hundreds of deans and college officials who provided the data on which this report is based. This survey was conducted and the report coordinated by Barbara Ann Howley. The text was typed and edited by Rosanna Bonadonna and Marilyn Perullo. Donald E. Irwin is consultant to the Engineering Manpower Commission staff.

INTRODUCTION

Following the format established in 1976, this report on engineering and technology degrees awarded in 1981 again presents the data in three parts. Each of the three parts focuses on a different aspect of the engineering and technology degree data and is designed to present the statistics in the most useful and convenient format.

Part I, 58 pages, consists of degree data for each school arranged in tabular form with columns for the 21 most prominent curriculum groups, totals for the school, and information on each school's accreditation and control status. There are separate tables for each of four degree levels in engineering, four in engineering technology, and four in industrial technology. At the end of each table are summaries of the number of special categories of students, i.e., the four minority groups (Black, Hispanic, American Indian and Asian/Pacific), Women and Foreign Nationals included in the totals for each degree level. This data is useful to educators in planning curricula, and as an aid in career counseling. These summaries are useful as the most complete source of data on engineering and technology programs and degrees.

Part II consists of 154 pages of detailed data broken down into each of six special categories of students, i.e., the four minority groups (Black, Hispanic, American Indian and Asian/Pacific), Women and Foreign National students presented in the same format as Part I. Prior to 1976, such degree data was not available for both engineering and technology. Part II should be useful to business and industry employers in planning affirmative action programs to meet recruiting goals for minorities and women, and to all individuals who are concerned with the progress of the national effort to increase participation of minorities and women in engineering.

Part III focuses on curricula in greater detail than the other parts. Each of 29 different engineering or technology curricula groups is listed in alphabetical order, giving the schools offering such programs, number of degrees awarded at each degree level, and the number of special categories of students, i.e., the four minority groups (Black, Hispanic, American Indian and Asian/Pacific), Women and Foreign Nationals graduated from each school. The Accreditation Board for Engineering and Technology (ABET) accreditation for specific curricula is designated for each curricula. A final set of tables summarize degrees at all levels of engineering and technology according to the detailed curriculum titles. Part III, 103 pages in length, enables users to find data on programs, affirmative action planning, etc.

For the convenience of users, these parts of Engineering and Technology Degrees-1981 are available separately or as a set. A separate report on Engineering and Technology Enrollments for 1981 is scheduled to be off the press during January, 1982. Orders may be placed with the Publications Department, American Association of Engineering Societies, 345 East 47th Street, New York, New York 10017.

PART II

Following the same format as in Part I, this part of the report gives details of data on engineering and technology degrees received by members of the six special categories of students.

Tables appear for each of the following six special categories of students: the four minority groups (Black, Hispanic, American Indian, and Asian/Pacific), Women and Foreign Nationals, for the following degree levels:

- Engineering Degrees
  - Bachelor's
  - Master's
  - Engineer (Professional)
  - Doctor's

- Engineering Technology Degrees
  - Certificate - 2 year
  - Associate
  - Bachelor's

- Industrial Technology Degrees
  - Certificate - 2 year
  - Associate
  - Bachelor's
  - Master's

The engineering tables include data from schools known by the EMC to offer engineering degrees at the bachelor's level or higher. The data are essentially complete for all engineering schools in the U.S. In some cases curricula have been grouped under generic headings, as described later, rather than under the title reported by the school. Data are presented in twenty-one curricula categories.

The engineering technology and industrial technology tables show data for selected schools, including all schools on the ABET-accreditation lists for 1980. Data are presented in twenty-one curricula categories.

Unlike the totals for engineering degrees, the technology degrees totals do not represent national totals because they include only selected schools responding to the survey. There is no way of knowing how many additional degrees may have been awarded by other schools. The 1981 technology degree data are not directly comparable to previous years' surveys because of variations in the schools responding each year.

Engineering Technology and Industrial Technology Degree Categories

ACN	Air Conditioning & related
AER	Aircraft & related
ARC	Architectural
AUT	Automotive, Diesel, Internal Combustion, etc.
CHE	Chemical
CIV	Civil, Highway, Surveying, Transportation, etc.
CON	Construction and Structural
CMP	Computer, Data Processing, etc.
DRF	Drafting, Design, Graphics
ELE	Electrical, Power Distribution
ELM	Electromechanical, Instrumentation
ELX	Electronic, Communications, Radio, TV, etc.
ENS	Engineering Science, Laboratory Technology (includes 2-year pre-engr.)
GEN	Engineering Technology, General Technology
INT	Industrial Technology, Manufacturing, Quality Control, Systems
MAR	Marine, Marine Construction, Nautical Technology, etc.
MCH	Mechanical
MNP	Mining, Metallurgical and Welding
MTR	Materials, Materials Science
NUC	Nuclear, Radiation
OTR	Other Technology, e.g., Water Resources, Environmental, Forest, Agricultural, etc.

ESTIMATED DATA

Information was not received from the following engineering schools at the time of publication. In order to present reasonable comparative data to previous reports, information from the 1980 report has been substituted for these institutions:

ABET-Accredited - University of Michigan, Ann Arbor
University of Southern California

Non-Accredited - Detroit Institute of Technology
Loyola College, Maryland

Information was not received from the following ABET-accredited engineering technology schools at the time of publication. Information from the 1980 report has been substituted for these institutions:

Monroe Community College, New York
Nassau Community College, New York
Trident Technical College
University of Rhode Island

EXPLANATIONS OF SYMBOLS AND ABBREVIATIONS

Column 1 - School. Schools are listed alphabetically by state, followed by a total for that state.

Column 2 - Accreditation and Control (AC). The first digit is an accreditation code with the following meaning:

1 = At least one engineering curriculum accredited by ABET (1980 list). Used only in the engineering degree tables.
2 = At least one technology curriculum accredited by ABET (1980 list). Used only in the technology degree tables.
4 = Accredited by a regional accrediting commission (1980-81 list).
5 = Accredited by NATTS (1980-81 list).
6 = None of the above.

The second digit indicates control of the school according to the following code:

1 = Public - state or local government control
2 = Public - federal government control
3 = Private - non-profit, non-sectarian
4 = Private - religious
5 = Private - proprietary

The remaining columns give the number of degrees awarded by each school by major curriculum group, as follows:

Engineering Degree Categories

AER	Aerospace, Aeronautical, Astronautical
AGR	Agricultural, Forest
ARC	Architectural
BIO	Bioengineering, Biomedical
CER	Ceramic
CHE	Chemical and related
CMP	Computer Science or Computer Engineering & related
CVL	Civil, Construction, Structural, Transportation & related
ELC	Electrical, Electronic, Electrial Power, Communications, Electromechanics
ENS	Engineering or Applied Science, Mathematics, Mechanics, or Physics
ENV	Environmental, Sanitary, Atmospheric Sciences, Water Resources, etc.
GNL	General, Engineering Economic Systems, Interdisciplinary, etc.
INM	Industrial, Human Factors, Manufacturing & related
MAR	Marine, Naval Architecture, Ocean, etc.
MEC	Mechanical, Automotive and related
MGN	Mining, Mineral, Geological
MTL	Materials Science or Materials Engineering, Metallurgical, Welding
NUC	Nuclear
PET	Petroleum
OTH	Other
SYS	Systems, Operations Research, Systems Science

Detailed Data by Curriculum Title and Accrediation

ENGINEERING MANPOWER COMMISSION

(C) American Association of Engineering Societies, Inc. 1981

A Commission of the
Engineering Affairs Council
of the
AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES, INC.

November, 1981

AMERICAN ASSOCIATION OF ENGINEERING SOCIETIES, INC.

The American Association of Engineering Societies (AAES) is a national organization with 43 constituent organizations representing nearly one million engineers.

As a central coordinating organization, AAES focuses the resources of the engineering societies on technical issues of national and international importance.

1981 OFFICERS

H. Arthur Nedom
Chairman

Irvan F. Mendenhall
Chairman-Elect

Nicholas J. Radell
Secretary/Treasurer

Kenneth A. Roe
Past-Chairman

Robert A. Frosch
President

Carl Frey
Executive Director

ENGINEERING AFFAIRS COUNCIL

The Engineering Affairs Council is responsible for matters concerned with the practice of engineering in the public interest. The Council encourages voluntary exchanges of information, coordination of goals and joint action.

1981 OFFICERS

Bruno O. Weinschel
Chairman

James F. Shivler, Jr.
Vice-Chairman

Eric Herz
Secretary/Treasurer

THE ENGINEERING MANPOWER COMMISSION
# of the
AMERICAN ASSOCIATION OF ENGINEERNG SOCIETIES, INC.

The Engineering Manpower Commission was organized in 1950 as part of Engineers Joint Council, now the American Association of Engineering Societies, to serve as a focus for national technological manpower activity.

The Commission's program is carried out through the collection, analysis and publication of significant data on engineering manpower, as well as the development of programs and policies designed to acquaint the public with the importance of engineering to the national welfare.

The Engineering Manpower Commission is charged with the following responsibility:

> "To engage in studies and analyses of the supply, demand, and utilization of engineering and technical manpower; to make recommendations, conduct programs, and develop reports concerning these aspects of engineering and technical manpower; and to carry on such other programs in the field of manpower as may be authorized by the Board of Governors of AAES."

1981 EMC OFFICERS AND STAFF

Richard C. Fremon	Chairman
Kenneth Brooker	Vice-Chairman
Luke H. Noggle	Chairman, Surveys Committee
Paul Doigan	Chairman, Degree Survey
Patrick J. Sheridan	Manager, Manpower Activities
Barbara Ann Howley	Assistant
Judith A. McCormick	Assistant
Marilyn Perullo	Secretary

ACKNOWLEDGEMENTS

The Engineering Manpower Commission is pleased to recognize the invaluable assistantce of A. Earl Renner, Mark Swankoski, and associates in E.I. duPont de Nemours & Co., for the development of the computer program and the processing of the data for this survey. We appreciate the cooperation of the hundreds of deans and college officials who provided the data on which this report is based. This survey was conducted and the report coordinated by Barbara Ann Howley. The text was typed and edited by Rosanna Bonadonna and Marilyn Perullo. Donald E. Irwin is consultant to the Engineering Manpower Commission staff.

Engineering Curricula by School--1980-81. 1

Technology Curricula by School--1980-81 43

Engineering, Engineering Technology and Industrial Technology Curricula by Degree 85

INTRODUCTION

Following the format established in 1976, this report on engineering and technology degrees awarded in 1981 again presents the data in three parts. Each of the three parts focuses on a different aspect of the engineering and technology degree data and is designed to present the statistics in the most useful and convenient format.

Part I, 58 pages, consists of degree data for each school arranged in tabular form with columns for the 21 most prominent curriculum groups, totals for the school, and information on each school's accreditation and control status. There are separate tables for each of four degree levels in engineering, four in engineering technology, and four in industrial technology. At the end of each table are summaries of the number of special categories of students, i.e., the four minority groups (Black, Hispanic, American Indian and Asian/Pacific), Women and Foreign Nationals included in the totals for each degree level. This data is useful to educators in planning curricula, and as an aid in career counseling. These summaries are useful as the most complete source of data on engineering and technology programs and degrees.

Part II consists of 154 pages of detailed data broken down into each of six special categories of students, i.e., the four minority groups (Black, Hispanic, American Indian and Asian/Pacific), Women and Foreign National students presented in the same format as Part I. Prior to 1976, such degree data was not available for both engineering and technology. Part II should be useful to business and industry employers in planning affirmative action programs to meet recruiting goals for minorities and women, and to all individuals who are concerned with the progress of the national effort to increase participation of minorities and women in engineering.

Part III focuses on curricula in greater detail than the other parts. Each of 29 different engineering or technology curricula groups is listed in alphabetical order, giving the schools offering such programs, number of degrees awarded at each degree level, and the number of special categories of students, i.e., the four minority groups (Black, Hispanic, American Indian and Asian/Pacific), Women and Foreign Nationals graduated from each school. The Accreditation Board for Engineering and Technology (ABET) accreditation for specific curricula is designated for each curricula. A final set of tables summarize degrees at all levels of engineering and technology according to the detailed curriculum titles. Part III, 103 pages in length, enables users to find data on programs, affirmative action planning, etc.

For the convenience of users, these parts of Engineering and Technology Degrees-1981 are available separately or as a set. A separate report on Engineering and Technology Enrollments for 1981 is scheduled to be off the press during January, 1982. Orders may be placed with the Publications Department, American Association of Engineering Societies, 345 East 47th Street, New York, New York 10017.

PART III

This part of the report presents the 1981 degree data grouped under more detailed curricula headings than Parts I and II. Taking each of the different curricula in turn, the tables list all schools reporting degrees in that field, the number of degrees awarded at each level, and the number received by six special categories of students, i.e., Women, Black, Hispanic, Asian/Pacific, American Indian, and Foreign Nationals.

Again, this year the curricula titles include the exact title provided by each school. This allows for specific or specialized reporting of programs. The tables also indicate those curricula that are accredited by the Accreditation Board for Engineering and Technology (ABET) according to the following codes:

B = accredited at bachelor's degree level
M = accredited at master's degree level
A = accredited at associate degree level

The accredited designation is now complete for all the curricula. In a few cases, both accredited and non-accredited curricula are shown for the same school. This information is provided only for the convenience of the user.
